

Turmeric Microbeads SFT (Stain Free Tech)

Problems with Turmeric Powder

**Staining &
Dusting**

**Low
Flowability**

**Increased
production
loss**

More Problems ...

**Non-Suitable
for Tableting**

**Hygroscopic
Nature**

**Non Formulation
Friendly**

Our Solution : SFT (Stain Free
Tech) beadlets

**PUREMERIC™**

PUREMERIC SFT Advantages

Free flowing

Beadlets flow freely into the manufacturing equipments.

Less Staining

SFT stains less on machines & cloths, thus minimises cleaning cost & cross contamination.

Encapsulation protects actives

It protects actives. And beadlets are ready for **Direct Compression**

More Advantages ...

Protects Hygroscopic Nature

The turmeric gets protection from humidity.

Unique Technology

The technology used is one of a kind which we believe is the future.

Facilitates Formulation

It facilitates formulation/production. And they are clean labelled ingredients.
